He has ceased work here and will take his will to Tennessee, where he will resume work.—He has paid his workhands nearly one thousand dollars since he began work here, which should be quite a financial help to our section and has caused the hickory timber to disappear very rapidly, which could not have been used very profitably otherwise.

Food don't digest? Because the stomach lacks some one of the essential digestants or the digestive juices are not properly balanced. Then too, it is this undigested food that causes sourness and painful indigestion. Kodol Food Indigestion should be used for relief. Kodol is a solution of vegetable acids. It digests what you eat, and corrects the deficiencies of the digestion. Kodol conforms to the National Pure Food and Drug Law. Sold here by Chas. C. Davis.

Historical.

By James Maret.

An old book containing the Acts of the Kentucky legislature of 1813 and '14 in a fair state preservation is, through the kindness of J. J. Painter, in the possession of the writer as a loan. It was found stuck under the rafter in the residence of John Sawyer, shortly after his death a few years since. The acts are published under head of chapters. The first shown in the book is under the head of Chapter XCVI, an act authorizing certain advertisement to be inserted in "The Light House," a newspaper printed in Danville and "The Sovereign People," printed at Russellville.

Chapter 100, an act authorizing Peter Bellis to receive the same fees for persons, horses, mules, and wheel carriages, crossing on his bridge, at his ferry on Dix River, as he gets for ferrying.

Chapter 104, for relief of John White a private on Logan's campaign in 1786. Three pounds, two shillings and five pence.

Chapter 120, an act to establish an election precinct in Clay county.

Chapter 138, an act for the relief of William Pearl and William Smith, (The latter is supposed to have been General Smith, of Rockcastle.)

Chapter 150, to amend law concerning patrollers.

Chapter 152, that the non-com-

missioned officers and soldiers, who volunteered and served on the late expedition against the enemy in upper Canada, under the command of his excellency Governor Shelby; and those who served last summer under Col. Russell, on an expedition against the Indians on the Wabash, shall be entitled to a credit for three 'tours' of duty, of the thirty days each. The names of other noted men appear in the wording of this act: Col Richard M. Johnson, Capt. William Garrard, Gen'l Sam'l Hopkins, Gen. Harrison and Gov. Edwards.

Chapter 155, for better regulation of the town of Winchester, Clarke county.

Chapter 156, authorizing and providing for the erection of a State House in the town of Frankfort.

Chapter 163, for benefit of George Walker, whereas it appears that George Walker did, some years ago, settle himself and family upon a piece of unappropriated land in the county of Rockcastle, upon which the said Walker now resides etc., (near "The Mud Spring.")

Chapter 167, Legislative expenses: Speaker of House and Senate \$4 each per day. Clerks, Senate and House \$60 each per week.

Sergeant at arms and doorkeepers \$16 week. Roger Divine for cutting fuel, furnishing water, candles, candles for the House one session \$60. David Johnson 473 loads wood for use of General Assembly \$173. Gerard and Berry public printers, one years work

\$635 80 David Neiss, binding 1500 copies of acts present session \$375. Anthony Crocket, for his services as an express; employed by the Governor to Gen'l Harrison's army \$200. Richard Taylor for preparing house for legislature and house rent \$1,070.89 1/2. Humphrey Marshall for two and one half dozen chairs for use of the legislature \$60. Roger Divine, for five sets of andirons for use of legislature \$25.62 1/2.

These are only a portion of the appropriations shown in the book. These acts dated up to Feb. 1st 1814, none of the money appropriation to be paid until the following December.

A resolution was passed looking to the borrowing \$100,000 from the Bank of Kentucky for paying Kentucky's quota of direct tax to U. S. Government. Treasurer was directed to inform the Treasury Department that money would be ready for payment on the 10th of February.

The ending of the book is "a resolution approbatory of the conduct of his excellency Isaac Shelby, in leading the Kentucky militia into Upper Canada, to victor and to glory."

In parts of the book are found pen and ink writing. Inside of cover is found the names of "Amanda, Sallie and Sam." Further over is found the name of "David Martin Owens." The name of Nathan Brown is found on a number of pages. In one place appears this record: Nathan

Brown was born Dec. 17, 1804 by G—d.

On another page it shows that Henry Sowder was born January 4, 1804 by G— and was married the 1st of January 1829.

Another inscription reads: "Jas. Henderson March the 1st day 1835."

Among the items in blank assessment form was "Blanks over 16." No intimation is given as to where the legislature held its sessions or where the book was printed. The printing is good. The spelling is almost identical with that in use to day. Some obsolete words are found.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 75 pounds and coughing was constantly, both by night and day. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds. Thousands of persons are healed every year. Guaranteed by all druggists 50 and \$100. Trial bottle free."

Complying with his contract with Gov. Hanly, the latter's Speaker of the Indiana House, named the Governor's men as chairmen of the most important committees. A rigid Anti-trust Bill was introduced and will receive the support of the Democrats.

ABOUT the most disgraceful thing Kentucky has witnessed for some time was the "mock" trial of the Hargises, begun at Jackson last week, with the now famous and illustrious Judge Carnes on the bench, appointed by the Governor as a special Judge to try the case. If the Governor intends that the Hargises and their infamous clan shall go free, why not give them an absolute pardon and stop the big expense of holding so many farcical trials. The rulings of Judge Carnes for the short time he was allowed to sit in the case, before answering before the Court of Appeals for trial for his improper rulings, is unprecedented in the history of our nation. If Judge Carnes was not selected because of his appropriate fitness for this special case it will take a long time to make the honest people think otherwise and the ridiculous proceedings are enough to put to shame any half decent or respectable citizen to say nothing of those directly and indirectly interested.

If there is any one thing that the town of Mt. Vernon is sorely in need of, it is a wide-awake Commercial Club. Improvements seldom come in any town except by a united effort on the part of the business men of that town and while we believe that our business men are some of the best people on earth, yet we regret to have to say that in the past, that it seems that the spirit of public improvement, the effort to attract people and enterprises to our town, has not had the consideration from them that it should have had. The spirit of improvement is on throughout the land and there is no reason why Mt. Vernon should not join the procession. So long as the citizens of the town are guided by selfish and indifferent motives, and look only to the making of a few dollars for themselves, just that long, will that town be either on a standstill or in the backward march. Let us have a more united effort and strive to get some of the enterprises, which we ought to have should have and can have.

It has been discovered that apples wrapped in newspapers will keep all winter, the paper excluding the damp. Care should be taken, however, that the subscription be paid or the dampness in the paper from what is due will spoil the fruit.—Kansas City Journal.

POLITICS AND POLITICIANS

An Arkansas State Senator who figured in the recent bribery exposures in that State was refused a place in the Democratic legislative caucus at Little Rock.

The nomination of George C. Cortelyou to be Secretary of the Treasury was confirmed by the Senate Tuesday, together with a number of other Cabinet officers.

The uprising at Jackson is evidence that the people of Kentucky are tired of partisan courts and the protection of assassins for political reasons for the powers that may be. The honest, fair minded men of our State, of whatever political affiliation, are desirous that our courts be conducted from a standpoint of fairness and not of favoritism. We do not believe there would have been the slightest trouble at Jackson had not the rulings been palpably in favor of Hargis.—Sentinel Democrat.

Senator Tillman spoke on the Brownsville incident in the Senate. He characterized the President's action in the matter "as nothing more nor less than lynching." He challenged anyone to produce in the army regulations or articles of war any foundation for the charge of conspiracy of silence, mutiny and treason made against the soldiers, although he declared there was no doubt that these soldiers were responsible for the "outrage at Brownsville." The Senator was interrupted many times by other members, who questioned him closely on the ground for his racial opinions.

A convention will be held at Mt. Sterling in April to nominate a candidate for railroad Commissioner for the Third district.

LEE'S BIRTHDAY.

Saturday, January 19th, will be the birthday of that great Southern patriot Robert E. Lee. All through the South the occasion will be celebrated, and his memory honored. No hero in all our nation's history is so loved and revered in Dixie, and the recurrence of the day of his birth is taken advantage of in all places where the ex-Confederates are organized, to pay to him the deep tributes of many hearts. We have as yet heard no demonstration to be held here, but expect that some exercises will be held either by the camp of confederates veterans or the Daughters of the Confederacy.

The President Monday sent to the Senate a special message on the Brownsville affair, in which he calls the discharged soldiers "mid night assassins" and reaffirms his authority to discharge them from the army. He also transmits Secretary Taft's report containing the evidence taken at the investigation. The Senate Monday indulged in another field day of oratory, in which Senator Mallory, of Florida, upheld the President's actions in dismissing the negro troops from the army. The debate was participated in by a number of Senators, and was not concluded.

Judge William Carnes, who presided at the trial of James Hargis at Jackson and who had been cited to appear before the Court of Appeals, was in Frankford Monday conferring with Gov. Beckham. He charged Floyd Byrd with playing to the galleries and said several motions which he overruled, were not in good faith. He also explained several of his rulings. He will be given a hearing before the higher court to-day, but has not employed an attorney.

James J. Hill, president of the Great Northern Railroad Company, has written a letter to Gov. Johnson, of Minnesota, in which he deals exhaustively with the various railroad problems. Mr. Hill sets out at length what, in his opinion, is responsible for the existing situation and what should be done to remedy it. The Western country has grown so fast that the railroads have been unable to keep pace with it, Mr. Hill says, and he believes the building of additional trackage is the best solution of the problem.

The Supervisors made over seven hundred raises in the county, and if any of them were unjust we have not heard of it. All the property in the county was listed at any thing like what it could be bought for, our county would not rank so low in the list of pauper counties.

For the benefit of our correspondents we want to say that all items of an advertising nature will be cut out, unless same are marked to indicate that that portion is to be paid for at the rate of 5 cents per line. Fair treatment to all is our motto, and an advertisement is an advertisement whether found in the advertising columns or in the correspondence.

DEAD.—Mr. James Poteet, aged 77, died Tuesday after an illness lasting since last Thursday, when he suffered a stroke of paralysis. Mr. Poteet has been in very poor health ever since the small-pox epidemic of three years ago, when, as a special deputy, he was considerably exposed to bad weather, in looking after the small-pox patients. His burial took place Wednesday in the family burying ground near Pine Hill.

"Kentucky Laws Made Plain" is the title of a one hundred page book handsomely bound, which the Peoples Bank is giving away as an advertisement. It gives a brief synopsis of every law on the statute books and every subject is dealt with in a manner, not as the lawyer would want it, but such that the farmer, stockman, merchant etc. who do not have the time to make law a study, can by few hours reading acquaint themselves with the fundamental points involved. It is very useful and something that every one will appreciate.

With the tributaries of the Ohio pouring floods into it at all points south of Pittsburgh, and the danger line reached in many places, it is predicted that the river will equal the flood of 1884. The Ohio passed the danger line at Cincinnati, flooding the Grand Central station, the use of which has been discontinued. Rivers and creeks in Kentucky are all raging and great damage has been done. Many small towns on smaller rivers are threatened with inundation and families are moving their goods. Rain is general throughout the Ohio valley.

The electric light plant is the very thing we want says everyone, and we want to see it go, think it will do so much to the town, yet, when asked how many lights can you use the response comes, "Oh, my expenses are so heavy already that I cannot afford to obligate myself further. At the very best very little is to be made out of an electric light plant in a town the size of Mt. Vernon, and those who start it run a great of losing all that is invested, but that is not here nor there, if the people of Mt Vernon want lights, you will have them, and if you prefer stumbling along in total darkness, show your desire by failing to subscribe for lights and your wishes will be granted. What says the people? It is up to you.

Marriage license were issued this week to Richard Owens and Miss Betsey J. Hall of Brodhead and Joe T. Renner and Miss Dora Blackburn of the Skeggs Creek section.

Richmond is to have a vote March 12, on the saloon question. A citizen of Richmond told us a few days since, that a paper, which had been circulated by anti-saloon league, showed more than two-thirds of the voters against saloons. One of the leading saloon men of the town says he will vote with the temperance people.

In "Some Rockcastle History" occurred an error, in last issue. Johnathan S. Langford the lawyer was buried by the side of first monument erected in Mt. Vernon or Rockcastle County, but the Jonathan Langford or the Langford who bought the lot and erected the monument was not buried there. In one part of the article it reads "power" mill should be powder mill. By oversight the name of Willis Griffin one of the charter members of Mt. Vernon Royal Arch Chapter No 140 was left out. Odd Fellows lodge should read "no meetings were held after 1878" instead of 1874.

Capt. Smith, the L. & N. foreman of this place, has experienced considerable difficulty, for the last few days to prevent the fill, opposite W. H. Cox's old residence, washing off down town branch. On the east side of the fill there use to be a pond, but a year or two ago, there came a sink, which developed into a large sink-hole, right at the base of the fill, through which the water had passed entering the regular culvert and out on the lower side, without any serious damage, but the excessive rains of the last few days, brought such an abundance of water, that work day and night has been necessary to prevent the whole east side of the fill from washing away.

—The Evening Post prints a story that John D. Rockefeller has agreed to give two million dollars for the endowment of a University for Louisville, providing that a similar amount is raised by those most interested in the new institution. A plan is practically consummated whereby the University of Louisville will be fused with the proposed University of the Baptist and Methodist churches, and the property now occupied by the city as a site for the University.

STATE HEALTH BOARD CIRCULAR.

The State Board of Health has issued a circular letter dealing with some delicate facts in a very plain manner. It says that the destruction of unborn children prevails to an extent not generally realized and especially in the higher walks of life. It is destructive to health of women and conducive to immorality. The Legislature has made it the duty of the Board to revoke the license of any physician who commits this crime and the Board appeals to the medical societies and the people generally to aid in ferreting out the offenders and aid in the enforcement of the law. The Board will also revoke the license of all physicians who become so addicted to the use of liquor or drugs that they are not fit to practice medicine.
